# Diego Rodriguez

## WEB DEVELOPER

I am a responsible and proactive person who seeks to gain experience and grow in the area of systems and informatics

## Works

### ONG "Somos más"

This project was developed in React over 6 weeks together with a team of 5 colleagues during the Alkemy Labs acceleration, in order to be job ready by simulating a real work environment together with a mentor.

### Hero App

Application to create a team of superheroes that will consume an external API and show different attributes at the individual level of each member and of the consolidated team.

### Note App

App to create, edit, delete and save personal notes using an account which has to be created with your email.

### more works
